***REASON FOR ALLOWANCE***

Applicant's amendment and response filed on 3/19/2009 are acknowledged and entered.

Claims 1-5, 11, 37, 38, 41, 44-47, 49, 50 and 52 were pending. Applicant has amended claims 37 and 45, and cancelled claims 6-10, 12-36, 39, 40, 42, 43, 48 and 51. Therefore, claims 1-5, 11, 37, 38, 41, 44-47, 49, 50 and 52 are currently pending and are under consideration in this Office Action.

Applicant's arguments, see page 7, filed on 3/19/2009, with respect to claims 37, 38, 41, 44-47, 49, 50 and 52 have been amended to incorporate subject matter of claim 1 which is identified as being allowable. Therefore, the amended claims 37, 38, 41, 44-47, 49, 50 and 52 overcome the Hashimoto rejections.

Claims 1-5, 11, 37, 38, 41, 44-47, 49, 50 and 52 are allowed.

The following is an examiner's statement of reasons for allowance: with respect to independent claim 1, the prior art of record does not fairly teach the claimed "wherein, in the first navigation mode the navigation control moves by an amount that has a first relationship with the movement of the pointing device, and in the second navigation mode the navigation control moves by an amount that has a second different relationship with the movement of the pointing device, the navigation control moving linearly in accordance with the movement of the pointing device in both the first and second navigation modes" along with the other claimed limitations.

With respect to independent claim 37, the prior art of record does not fairly teach the claimed "wherein, when the selector is in the first state, the navigation control moves by an

Art Unit: 2629

amount that has a first relationship with the movement of the apparatus, and, when the selector is in the second state, the navigation control moves by an amount that has a second different relationship with the movement of the apparatus, the navigation control moving linearly in accordance with the movement of the apparatus when the selector is in both the first and second states” along with the other claimed limitations.

With respect to independent claim 45, the prior art of record does not fairly teach the claimed “wherein, when the selector is in the first state, the navigation control moves by an amount that has a first relationship with the movement of the pointing device, and, when the selector is in the second state, the navigation control moves by an amount that has a second different relationship with the movement of the pointing device, the navigation control moving linearly in accordance with the movement of the pointing device when the selector is in both the first and second states” along with the other claimed limitations.

Claims 2-5, 11, 38, 41, 44, 46, 47, 49, 50 and 52 are dependent claims are also allowable under same reasons as discussed for independent claims 1, 37 and 45.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
